Türk Telekom CEO Dr. Paul (Boulos H.B.) Doany comments on 2016 Q3 results:

I am honored to be back to Türk Telekom family, among my friends and colleagues. It is a privilege to lead an organization that has a strong heritage, with presence in every city of this great country. I am excited about the opportunities lying ahead. Türk Telekom is well positioned to leverage its strengths for increased value creation. Following the successful operational merger across our products and services, we plan to accelerate streamlining our organizational structure and to improve performance through increased efficiency, to deliver the best value for our stakeholders.

We are pleased to report successful results of the service integration steps taken by management to date, translate into strong financial performance. Türk Telekom has continued its strong growth momentum in the third quarter of 2016. Compared to same period of last year, we increased our consolidated revenues excluding construction adjustments by 9% to TL 3.9bn with the support of all of our business segments. EBITDA increased by 14% year on year to TL 1.5bn, the highest quarterly EBITDA in our history.

As Turkey's leading integrated telecommunication company, we continued to deliver solid operational performance in the third quarter of the year. We added 280 thousand subscribers to our subscriber base and increased the total number of subscribers to 38.5 million. In high growth businesses namely broadband, mobile and TV, we added 450 thousand subscribers.

We are particularly glad to report successful results for the first six months of LTE services. By the end of September, our smartphone penetration increased to 73% with 48% of our smartphone users carrying an LTE device. We have also observed a substantial increase in data usage levels of our subscribers with the launch of LTE. While average monthly data usage of smartphone subscribers was 2.3 GB in the third quarter of 2016, LTE subscribers' average usage was 3.5 GB – a clear signal of how LTE will enhance wireless data service going forward.

After the unification of our brands, we took another step this quarter and rebranded our youth mobile sub-brand as Selfy. With Selfy, we target to strengthen our position in youth segment. Selfy aims to empower youth by providing innovative offers and services.

On the fixed side, we continued to build on our strength. While we extended our fiber footprint to 223K km countrywide, the total number of homepass reached 13.1mn. This quarter, we recorded the highest third quarter broadband net addition since 2008, and 90% of our broadband net additions came from fiber side. Our fiber subscriber base grew 38% year on year, while share of subscribers using above 50 GB increased to 45%.

Our dedication to investing in Turkey and providing people with state-of-the-art technologies will continue. Myself and the full staff of this great company will do our best to serve all stakeholders by enabling every member of this company to fulfill their full potential to make a difference, drive growth and cut costs; and collectively create greater value altogether as one big team of 33,000 people.
